

July, 2016

ANNOUNCEMENT FROM THE GLOBELICS SECRETARIAT:

### Up-dating the AfricaLics Baseline Survey

AfricaLics is a community of scholars with special interest in how innovation and competence building contribute to economic and socially sustainable development in Africa. AfricaLics is the African regional chapter of Globelics. AfricaLics started in 2012 with support from the Globelics community and Aalborg University. In 2013, Sida provided a special grant aiming at supporting development of the network. The AfricaLics secretariat is located at the [African Centre for Technology Studies](http://www.africalics.org/) in Nairobi, Kenya. Please find further information about AfricaLics at <http://www.africalics.org/>

Sida funding has been key to the funding of a range of activities within the AfricaLics network including the AfricaLics conferences in Maputo in 2013 and in Kigali 2015 as well as a total of four AfricaLics PhD academies and the PhD Visiting Fellowship programme. These efforts are key to the overall objective of enhancing research capacity on innovation and development in Africa.

To be able to document results and created baseline for work to be done in the second phase, we are currently updating the AfricaLics baseline survey conducted in 2014. The final report will be made available at <http://www.africalics.org/>.

It would be very valuable if you are willing to spend 15-20 minutes to fill out the survey questionnaire. Your views are important to us and to the future of AfricaLics. We will not disclose the details of individual respondents in the survey report.

To fill out the questionnaire please follow this link: <https://www.surveyxact.dk/LinkCollector?key=WRUEVH4M1635>

Thank you in advance!
