DFC's ADMINISTRATION OF RESEARCH FELLOWS IN DENMARK

1. Danida Fellowship Centre

Danida Fellowship Centre (DFC) is a self-governing institution based in Denmark. DFC is planning and hosting fellowship learning programmes for public officials, members of civil society organizations, and the private sector from Denmark's partner countries. In addition, DFC administers Danida's research projects.

DFC receives approx. 1000 fellows every year and carries out a number of tasks in connection with the fellows' arrival and research in Denmark.

According to Guidelines for Danida Fellowships, which can be downloaded from the DFC website www.dfcentre.com, all Danida-funded fellowship activities shall be administered by DFC and follow the DFC guidelines to ensure the homogeneity and quality of training and living conditions in Denmark.

According to the conditions for grants to development research no overhead contribution can be included of expenses incurred by DFC relating to study periods in Denmark. If the institution exceptionally opts out the DFC services, the institution still cannot include the overhead contribution, even if the expenses in this case is incurred by the institution.

The authorization for residence permit is forwarded directly to the Embassy from the SIRI office in Copenhagen. **Please note that the processing time of a residence permit is minimum 8 weeks.
